Less Than 4 Weeks to Show Time.

At the time of writing there are only 25 days to go to the 2018 Show. All of those involved in putting the show together are now moving in to top gear, to ensure we bring you the very best show that we can. Entries are still coming in, however if you are thinking of entering, but have not yet done so I urge you to do so very soon to avoid disappointment.

We are once again most grateful to all of our sponsors and advertisers, without who the show would simply not happen. We have a range of sponsors, some of whom have been with us right from the start and some who have come on board this year for the very first time. Many of our sponsors will have a stand at the show along with other organisations and traders that will compliment and add to the feel of the event.

These include The Royal Society for the Prevention of Accidents (RoSPA), The British Motorcycle Federation (BMF). Both of whom work very hard to make our roads safer and protect the rights of drivers and riders to enjoy our chosen form of transport (old and new) responsibly. We are also Pleased to welcome The Royal Society for the Protection of Birds (RSPB) to the show, who do essential work in raising awareness and safeguarding our endemic and visiting birdlife, habitat and providing superb wildlife reserves in Lincolnshire and around the country. We hope you will find time to visit all of these stands and see for yourself the important work that these organisations do on our behalf.

We look forward to welcoming back, both Grantham and Spalding and East Elloe Classic Car Clubs whose members will be displaying their cars in the "club area". I am sure they will welcome you and provide information should you wish to join their membership and enjoy the many social events, meetings and rallies they put on through the year.

New for 2018 will be a live display by Sleaford RC Raceways, based on East Road Sleaford. Bob and his crew will be showing off their 1/10 scale model racing cars on a circuit built especially for the show. Hopefully you may get the chance to test your skills in driving one of these fantastically fast model cars for yourself.

So, make it a date, come along and see for yourself a host of great cars and motorcycles, talk to committed and enthusiastic folk about all things automotive and more besides.
